

Teach your children about money

Teens: Training Wheels

Age 13 to 16 is a great time to introduce your teen to the concept of **managing money responsibly**.

Credit Concepts

This is a good time to teach your teen about **borrowing, lending, credit cards** and how **interest** works.

Odd Jobs

Teens may enjoy **earning their own money** by mowings lawns, gardening, doing household tasks or odd jobs.

Young Entrepreneur

Teaching your teen **basic business concepts** is a great way to foster an **interest in business**. There are many resources to teach them **entrepreneurship skills**.

Life skills

Teach your teen **banking skills** and **security measures**. Let your child accompany you to the bank, and allow them to **perform banking actions** while you assist.

Monitor Accounts

Help your teens to monitor their account regularly; what they **spend compared to their budget**, and how their spending decisions **impact their savings goals**.

Your child's journey to success starts with you.
