

HealthSaver⁺

Earn money in your HealthSaver⁺ account for your day-to-day medical expenses

Momentum Medical Scheme helps you to cover your medical expenses, but Momentum also rewards you financially if you are healthy and active, and gives you the means to manage your own medical savings.

Scan to Pay with HealthSaver in the Momentum App, or tapping your HealthSaver card, gives you instant access to the money in your **HealthSaver⁺** account to pay healthcare providers, pharmacies and even vets.

You can use your HealthSaver⁺ not only to fund healthcare related expenses, such as co-payments, cosmetic surgery, refractive eye surgery, and vitamins, but also your monthly medical aid contributions if you have enough funds to do so. The money in your HealthSaver⁺ account could also be used to supplement your retirement savings, pay for your children’s education, buy a fitness device or donate a GP visit to anyone in need.

You can have a HealthSaver⁺ account without making contributions to it, or choose to contribute, in which case you can also apply for up to R36 000 in credit, subject to the National Credit Act (NCA) credit scoring criteria. A R40 annual administration fee applies.
